No. 2

2014

#### AMENDMENT OF VESSEL MONITORING REGULATIONS: MARINE RESOURCES ACT, 2000

In terms of section 61 of the Marine Resources Act, 2000 (Act No. 27 of 2000), I have made the regulations set out in the Schedule.

**B. ESAU**

**MINISTER OF FISHERIES AND MARINE RESOURCES**

Windhoek, 3 December 2013

### SCHEDULE

#### Definitions

1. In these regulations -

“the Regulations” means the Vessel Monitoring Regulations published under Government Notice No. 65 of 14 June 2005;

“the Act” means the Marine Resources Act, 2000 (Act No. 27 of 2000).

#### **Amendment of regulation 1 of the Regulations**

2. Regulation 1 of the Regulations is amended by -
- (a) the insertion after the definition of “ALC” of the following, definition:
- “Fisheries Monitoring Centre” means the fisheries monitoring centre established in terms of regulation 5”; and
- (b) the deletion of the definition of “vessel monitoring operations centre”.

#### **Amendment of regulation 3 of the Regulations**

3. Regulation 3 of the Regulations is amended by the addition after subregulation (6) of the following subregulation:

“(7) Despite subregulation (2) and (3), the ALC fitted on the vessel, to which these regulations apply, must enable the vessel to continuously collect and transmit, at any time, to the Fisheries Monitoring Centre the following data:

- (a) the vessel’s identification;
- (b) the most recent geographical position of the vessel which is the longitude and the latitude with a margin of error lower than 500 meters with a confidence interval of 99 percent; and
- (c) the date and time that the position of vessel, contemplated to in paragraph (b), is notified.”.

#### **Amendment of regulation 4 of the Regulations**

4. Regulation 4 of the Regulations is amended by -
- (a) the substitution for subregulation (1) of the following subregulation:
- “(1) The master of a vessel, to which these regulations apply, must ensure that the vessel of which he or she is the master and which has a defective ALC device communicates to the Fisheries Monitoring Centre daily, by radio, facsimile, telex or other means, the following data:
- (a) the vessel’s identification;
- (b) the most recent geographical position of the vessel which is the longitude and the latitude with a margin of error lower than 500 meters with a confidence interval of 99 percent;
- (c) the date and time that the position of vessel contemplated in paragraph (b), is notified; and
- (d) the vessel’s speed and course.”; and
- (b) the insertion after subregulation (1) of the following subregulations:

“the Act” means the Marine Resources Act, 2000 (Act No. 27 of 2000).

#### **Amendment of regulation 1 of the Regulations**

2. Regulation 1 of the Regulations is amended by -
- (a) the insertion after the definition of “ALC” of the following, definition:  
“Fisheries Monitoring Centre” means the fisheries monitoring centre established in terms of regulation 5”; and
  - (b) the deletion of the definition of “vessel monitoring operations centre”.

#### **Amendment of regulation 3 of the Regulations**

3. Regulation 3 of the Regulations is amended by the addition after subregulation (6) of the following subregulation:

“(7) Despite subregulation (2) and (3), the ALC fitted on the vessel, to which these regulations apply, must enable the vessel to continuously collect and transmit, at any time, to the Fisheries Monitoring Centre the following data:

- (a) the vessel’s identification;
- (b) the most recent geographical position of the vessel which is the longitude and the latitude with a margin of error lower than 500 meters with a confidence interval of 99 percent; and
- (c) the date and time that the position of vessel, contemplated to in paragraph (b), is notified.”.

#### **Amendment of regulation 4 of the Regulations**

4. Regulation 4 of the Regulations is amended by -

- (a) the substitution for subregulation (1) of the following subregulation:

“(1) The master of a vessel, to which these regulations apply, must ensure that the vessel of which he or she is the master and which has a defective ALC device communicates to the Fisheries Monitoring Centre daily, by radio, facsimile, telex or other means, the following data:

- (a) the vessel’s identification;
  - (b) the most recent geographical position of the vessel which is the longitude and the latitude with a margin of error lower than 500 meters with a confidence interval of 99 percent;
  - (c) the date and time that the position of vessel contemplated in paragraph (b), is notified; and
  - (d) the vessel’s speed and course.”; and
- (b) the insertion after subregulation (1) of the following subregulations:

“(1a) If an ALC device stops functioning or has a technical failure during harvesting operations lasting more than a month, the repair or the replacement of the ALC device must be made as soon as the vessel, to which these regulations apply, enters a port.

(1b) The vessel contemplated in subregulation (1a) may not begin harvesting operations until the repair or replacement referred to in that subregulation has been made, unless the vessel is exempted from this requirement under regulation 2(5).

(1c) A person who fails to comply with subregulation (1) or (1b) is guilty of an offence and liable on conviction to a penalty referred to in section 52(4) of the Act.”.

### General amendment of the Regulations

5. The Regulations are amended by the substitution for the expression “vessel monitoring operations centre” wherever it occurs in the Regulations of the expression “Fisheries Monitoring Centre”.

No. 3

2014

### DETERMINATION OF TOTAL ALLOWABLE CATCH IN RESPECT OF ROCK LOBSTER: MARINE RESOURCES ACT, 2000

Under section 38 of the Marine Resources Act, 2000 (Act No. 27 of 2000) and having requested the advice of the Marine Resources Advisory Council, I determine on the basis of the best scientific evidence available that the total allowable catch of rock lobster which may be harvested for the period of 01 November 2013 to 30 April 2014 is 350 metric tons, allocated in relation to each area indicated in the first column of the Table, for the period indicated in the second column of the Table and the allowable catch indicated in the third column of that Table.

TABLE

AREA	PERIOD	MASS
Southern area (Diaz Point-Orange River border)	01/11/2013 - 30/04/2013	150.5 metric ton
Central area (between the Lüderitz and Ichaboe sanctuaries)	01/01/2014 - 30/04/2014	49 metric ton
Northern and Far-Northern areas (including Gallovidea, Hottentot Point, Black Rock, Saddle Hill, Mercury, Easter Cliffs)	01/01/2014 - 30/04/2014	150.5 metric ton

B. ESAU

MINISTER OF FISHERIES AND MARINE RESOURCES

Windhoek, 20 December 2013

“(1a) If an ALC device stops functioning or has a technical failure during harvesting operations lasting more than a month, the repair or the replacement of the ALC device must be made as soon as the vessel, to which these regulations apply, enters a port.

(1b) The vessel contemplated in subregulation (1a) may not begin harvesting operations until the repair or replacement referred to in that subregulation has been made, unless the vessel is exempted from this requirement under regulation 2(5).

(1c) A person who fails to comply with subregulation (1) or (1b) is guilty of an offence and liable on conviction to a penalty referred to in section 52(4) of the Act.”

#### General amendment of the Regulations

5. The Regulations are amended by the substitution for the expression “vessel monitoring operations centre” wherever it occurs in the Regulations of the expression “Fisheries Monitoring Centre”.
